FINANCIAL AND COMMERCIAL.

SATURDAY, June 6-6 P. M. siderable speculation for a fall in the gold room to-day, mainly in consequence of the advance in five-twenties on the London Stock Exchange to 73 a 73%, and the fluctuations were from 139% to 139%, with the closing transactions at 139%. There was an active borrowing demand for coin, and loans were made without interest and at one per cent for carrying and two and three per cent for borrewing ntil Monday. The gross clearings amounted to 32,728,000, the gold balances to \$1,452,546 and ments of coin at the Sub-Treasury to-day in payment of interest on the public debt amounted to \$115,000, making \$666,000 for the week. American silver is quoted at 6% a 7 per cent below gold, and Mexican are 103% a 103% in gold. The Sub-Treasury resumed its conversions of seven-thirty notes into conds yesterday, and the amount converted was \$1,207,550, while to-day the aggregate was \$948,300.

The railway share market was at intervals excited nd irregular and Rock Island experienced a further dvance, sales having been made at one time as high as 103% under large transactions. Conflict-ing reports were circulated relative to the ent, real or proposed, between the committee of stockholders and the present directors of the company. If the facts be as represented in a press despatch from Chicago, published this morning, two
if not three new directors, including Messrs. Applen and Hunt, are to be substituted for an equal number of the present board, and certain suits against the Tracy party are to be withdrawn; but otherwise matters remain as they were before, Mr. Tracy still remaining president of the company. The road is to be built to Council Bluffs, and the proceeds of the forty-nine thousand shares of new stock are to be devoted to this purpose. Such a settlement as this involves a surrender of all the points originally contested by the stockholders, and would argue hopelessness on their part of being able to accomplish anything of material advantage to aselves. But as the suits proposed to be withdrawn do not include that brought by Mr. Fisk, in which a receiver has already been appointed, it is obvious that the settlement does not extend to this plaintin, and unless it comprehends all the litiga-tions growing out of the issue of the forty-nine thouand shares of new stock, it is hard to see of what elief it can be either to the stockholders or the dictors. If the transfer books are brought back to this city the receiver referred to will at once take possession of them, and this one suit covers the whole ground of the case. It is expected that the committee of stockholders will return to this city within a few hours, when some definite statement of the negotiations which have taken place will probably be made. At present the best informed re are in doubt as to what has actually been done. The business of the Stock Exchange may be said to have terminated after the one o'clock open board, and the lower hall closed at three, under a new reguation to be observed until the first Saturday in Octo ber; but a few outside brokers kept'up dealings on the street in a feeble way until an hour after this from dealing at all on Saturdays, within this inter al, after half-past three. There has been a firm but dull market for govern

ment securities, which however, developed an im-proving tendency in the afternoon. There were large purchases of the five-twenties of 1862 and 1865 by the fereign bankers for export, the demand from this source being stimulated by an advance in the former in London to 73 a 73%. The present lull will tless soon be followed by renewed activity and higher prices, and nearly all the sales made during the last few days have been of small lots held by weak parties anxious to realize their profits. Bonds have thus passed into stronger hands. At the close the arket was strong but quiet at the subjoined quotations:—Registered, 1881, 111% a 112; coupon, 1881, 116% a 116%; 5-20's, registered, 1802, 1083 a 109; 5-20's, coupon, 1802, 112% a 112%; do., 1806, 110% a 110%; do., 1805, 1804, 110% a 110%; do., 1805, January and July, 113 a 113%; do., 1807, 113% a 113%; 10-40's, registered, 108 a 108%; 10-40's, coupon, 108 a 108%; June v.80's, 109% a 109%; July 7.30's, 109% a 109%; August compounds, 1885, 118%; September do., 117%; October do., 117%.

Money was offered largely in excess of the demand

to the principal dealers in United States stocks and other first class firms at three per cent, and in some instances halances were loaned, at two ner cent ha the general rate on mixed collaterals was four. The statement of the associated banks of this city for the week ending to-day shows that they continue to gain largely in deposits and legal tenders; but the gain from this source is neutralized by the loss in specie owing to the shipments to Europe which are being made. The deposits have increased \$4,342,691, the legal tender notes \$3,188,275 and the loans \$4,814,27 while the circulation has because \$5,614,877, while the circulation has increased \$42,563 and the specie has decreased \$3,532,557. The increase in loans mainly reflects the purchases of United States stocks by the banks for the employment of their surplus funds. The totals of the las

ent of business the stock market was strong and somewhat excited, the greatest tivity being in Rock Island, which sold up to 103% at the early session of the open board, while New York Central advanced to 133%. At the first regular board there was diminished activity but considerable firmness, and New York Central closed 1% higher than at the same time yesterday, Erie %, Michigan Southern 1, Cleveland and Toledo 1%, Rock Island 2%, Northwestern preferred % and Fort Wayne 2%, while Quicksilver was % lower. Government securities were steady but quiet. At the open board at one o'clock the market was duil, and Rock Island sold at 103% a 103; Michigan Southern, 89%; Pacific Mail, 97%; West-ern Union Telegraph, 38%; New York Central, 134; ern Union Telegraph, 38%; New York Central, 134; Erie, 70%; Reading, 94%; Hudson, 141%; Wabash, 50%; Fort Wayne, 111%; Ohio and Mississippi, 30%; Cleveland and Pittsburg, 88; Cleveland and Toledo, 108% a 109%; Northwestern, 68%; Northwestern preferred, 80% a 80%; Quicksilver, 26%. There was no later session of the open or regular board, both boards having agreed to omit the Saturday afternoon call during the summer. The dealings in the lower hall were on a very restricted scale and the market showed diminished buoyancy, Erie belling down to 69% a 69% and Rock Island to 102% a 102%, but just prior to the close prices were bid up again a little. There were no transactions on the street after four o'clock, and the latest quotations were as subjoined:—Western Union Telegraph, 88% a 88%; New York Central, 134 a 134%; Eric, 69% a a 53%; New York Central, 134 a 134%; Erie, 69% a 69%; Reading, 64% a 64%; Michigan Southern, 90 a 90%; Cieveland and Pittsburg, 87% a 88; Cieveland and Toledo, 109 a 109%; Rock Island, 103 a 163%; Northwestern, 68 a 68%; do. preferred, 80% a 80%; Fort Wayne, 111% a 111%; Pacific Mail, 97 a 97%.

The highest and lowest prices of the leading speculative stocks in 1861 and 1862, respectively,
